Café Screens

Breezefree Café Screens are the perfect way to define your alfresco space and promote your establishment on a budget.

Café Screen posts are made from quality stainless steel to withstand the elements and the weighted bases ensure your screens stay standing in the wind.

We offer custom length panels and a full branding service so you can achieve that perfect look.

Panels

Café Screen panels come in a variety of materials - including canvas in a variety of colours and a breathable, fully brandable mesh.

Panel lengths are made to order to ensure your Café Screens fit your area perfectly.

Panel type	Max recommended Length
Polyester & Acrylic Canvas	2m
Reinforced & Clearview PVC	2m
Breathable Mesh	2m

Branding

Canvas panels can be branded with simple logos to promote your business or a brand.

Mesh and PVC Screens can be fully printed - perfect for complex designs or temporary promotions.

Posts

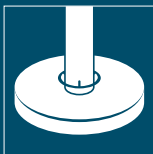

Made from Stainless Steel, Café Screen posts are built to last and can withstand rigorous commercial use.

Posts can also be powder-coated to give a unique look and complement your brand.

Powder-coat your posts in a variety of colours to enhance your brand or complement your establishment

Bases

Café Screen bases come in a variety of sizes and weights - ranging from lighter bases perfect for interior use to wider, heavier bases to ensure your screens stay standing in windy areas.

Baseplate Type	Weight	Diameter
Standard	25kg	33cmØ
Wide	25kg	40cmØ
Heavy contract	38kg	40cmØ
